Get Ready for Halloween

Make the Home Trip Count

It takes time to roll home from town with an empty wagon, and time is money. Why not put the home trip to good use?

The next time you are in town to deliver a load, drop in at our office and talk over those repairs you have been thinking about. We shall be glad to give you our suggestions on the best way to make them, to estimate the materials needed and to load them on your wagon. In that way you can make the home trip count.

We have several rolls of roofing, a supply of lumber and a few sacks of Universal cement on hand, there'll be nothing to prevent you from utilizing spare hours in doing the work you know should be done.
