DANGER SEEN IN HIGH BIRTH RATE
 The white's growth table must accommodate 200,000,000 more people by the year 1950. It is estimated that the world's population will be 2,000,000,000 by that time. This is a tremendous increase and will require a corresponding increase in food and other necessities. The world's population is growing at an alarming rate, and this is a cause for concern.
