GOODYEAR TIRES

Lead the World Today

More people know what they want. In spite of bitter experience they had the best eventually—in tires, as in other things.

Above the baffling claims of rival manufacturers and allegations of price-cutting dealers, the judgment of numbers bears out.

More people buy Goodyear Tires than any other kind, and for this there is a reason.

Why do you never see smaller house tires on your new car when it is delivered to you, and what would you think if you did?

The 30 1/2 Overplus Pathfinder Coach at \$67.5 is a value in a tire that you can't beat anywhere.

And just so with the full line of GOODYEAR. REMEMBER: Right tire is always the cheapest in the long run.
