GOODYEAR TIRES

The World's Greatest
No Idle Boast
When GOODYEAR introduced this new tire as "The World's Greatest Tire" the world sat up and took notice.

We believe you know a good tire when you see it, and also know when a man is telling us the truth, and especially when he comes in and tells us GOODYEAR is the best tire he has ever used, and then backs up the assertion by buying another tire—this leaves no doubt in our mind about his veracity.

You have no idea how many people come in and tell us just such a story and buy another tire.
Many people have used Goodyear for years, and will not be tempted to use any other.

We have another reduction in price, and one which makes the price far below history in the history of tires.
