### McCormick-Deering Endgate

## Lime Spreader

The McCormick-Deering Endgassell inc Spreader is built in one size only, weighs 174 pounds, and is driven by a chain from the main driving repocket which is fastioned securely by clip and hook bolts to the wagon spokes. As there on the left-band side is provided to the operator can be seen to be considered to the control of the contro

HOPPER EASILY FILLED

The hopper fits flush with the wagon box bottom, so the pulverized lime need not be lifted while shoveling but simply pushed into the hopper.

INCREASES CROP YIELD

The McCormic-Deering will spread evenly pulverized lime, wet or dry, powdered fine or lumpy, and is adjust-ble to spread the desired amount per acre.

To see this lime sower in the field is to appreciate its worth. Spread lime, it pays: but do it with a McCormick-Deering. It means reducing labor and saving time, and besides a bigger yield.

Price \$42.50 Saves Time and Reduces Labor

### Let All These Babies Live

When a bally chick dies you really loss the worth
of a laying hen or stalkle occherly, because that's
what these bally chicks would be in a thort time.
Turselo Starting Math has saved thousands of
chickel. Only four or five deaths out of a thousand
or more is not unusual. Some even report not a
single death all season!
