THE CITY STORE

Several years ago the executive heads of a large business organization believing they were doing the right thing, determined that a certain percentage of each year's salary was to be withheld for various purposes.

Although the plan was not intended to be of the nature of a pension, it was intended to provide a means of accumulating funds for the benefit of the employees in case of their death or disability.

Great business success has been achieved by the plan. It has enabled the company to attract and retain the best talent. It has provided a means of accumulating funds for the benefit of the employees in case of their death or disability.

Lower Your Milk Costs

You can make your milk cost you less. How? By getting the right kind of feed for your cows and your equipment.

Simply feed the right concentrate to go with your roughage. Feed Tuxedo Dairy the only complete feed which fits the needs of your cow on every farm.

No matter what your roughage or your own farm-grown grain, with Tuxedo Dairy you are sure of a perfectly balanced ration, and you'll have a profitable, healthy herd. Let us help you get the right concentrate.

Simplicity of cooling system is a feature of the new Ford

The hot water radiator is drawn to the cylinder head in order to be cooled by the engine water.

The purpose of this water pump is to keep the engine cooled to a temperature that it requires very little attention.

The radiator should be kept full of water, and drained once each month so that sediment will not collect and retard the free passage of water. In cold weather a reliable antifreeze solution should be added.

As owner and driver of this important water pump you should take the time to see that the water pump is properly lubricated and packed around the pump shaft kept in adjustment.

These connections may also need replacement if they are loose. For these little adjustments, it pays to call on the Ford dealer.

He works under close factory supervision and he has the special tools and equipment to do a regular service on your motor.

SURE WAY TO STOP COUGHING

The Prescription Refills Again

Coughing is usually due to cause which patient medicine and cough syrup do not reach. However, there is a famous doctor's prescription for coughing, which is not a medicine, but a simple, effective remedy. It works on an entirely new principle, and is the only cough remedy that has been shown to be effective in the treatment of coughing.

It is a simple, effective remedy that has been shown to be effective in the treatment of coughing. It is a simple, effective remedy that has been shown to be effective in the treatment of coughing.

5000 people whose sole job is bettering your service

The very nature of the telephone business necessitates a single inter-connected system. The Bell System accepts responsibility for a nation-wide telephone service as a public trust.

In the policy of the System to use all income, beyond that necessary for regular dividends and maintain a surplus for financial stability, to improve and extend the service. Because of the nature of the business, speculative profits have no place in it.

The Bell System maintains in its research, engineering and business staffs and its Bell Laboratories 5000 workers in a total of 350,000 employees—whose sole occupation is to improve the telephone and to make these improvements constantly available throughout the nation. These workers are a part of the continued progress of the Bell System, and they are constantly improving telephone service the lowest possible cost.
