Rely on This Mower for a Clean Job of Cutting

John Deere High-Lift Mower

When you own a John Deere High-Lift Mower you're equipped to do a clean job of cutting, this year, and for many years to come.

The John Deere is the simple, durable mower that's noted in all farming sections for its high, easy lift with either foot or hand lever.

By only slight pressure on the foot-lift you raise the bar high enough to pass over ordinary obstructions, and when you put the hand lift into use, the bar is easily raised to extreme height—even the inner shoe is raised high enough to pass over any obstruction that can be cleared by the doubletrees. This lift is so easy to handle a boy can operate it.

Other advantages of the John Deere you'll like are balanced drive gears, which prevent side strain and undue wear and increase power at the knife, the correct location of bevel pinion on shaft, which prevents end thrust, and the 21-point clutch, which insures instant gearing. All adjustments and repairs are made with ordinary tools.

Because it is light-running it is easier on your horses.

Don't wait—until the buying season is here to look after your mower. Come in now and see the John Deere at our store.

YOUR GARDEN

Have you seen tall Larkspur,
With rose hollyhocks?
Or purple **pinks** half folded
In flocks?
Do you know the arrow sweet
Of honeysuckle vine?
Have you seen old apple trees
Weave color in a line?

Though walls be high about them
Your garden blooms for me.
I have seen your hollyhocks
Cut like a little tree.
I have seen the birds go
To pools I have not seen.

You know how the bees come
The hum of busy way between
A garden is a garden
Wherever it may be.
Because I love a garden
Your garden speaks for me!

Have you yellow marigolds,
Vivid, pungent, strong?
If I've seen will find them,
With a lovely song.
I have little love poems
Bring, fragrant and gray,
And the golden bees come
A-long, long way.
