Make Sewing a Pleasure
It is that simple that spring sewing. Why not trade in
your old machine on a new Singer?

It is a real pleasure to do sewing with this machine. So
easy to run, almost noiseless, and sews twice as fast as the
old style shuttle machine and it is easy to own. A liberal
allowance for your old machine, a small down payment
and the balance in monthly installments you hardly miss.

We are glad to demonstrate the New Singer in your
own home at anytime. If your old machine is out of order
we can repair it, if it can be repaired. Needles, oil, belts,
bobbins, needles, etc., for any make of machine.
