Are You For

# Kankakee or Kentucky

Of Course You Are For Kentucky

But every sack of western flour you use you are helping to that extent to break down the market for soft winter wheat, one of the staple products of the Kentucky farmer.

Soft winter wheat, especially that grown in this section of the state, is the highest type of, grain for bread making purposes, but when the Kentucky farmer can not afford to grow it in competition with the cheaper western grains the days of the renowned Kentucky biscuit will be a thing of the past and the farmer will have lost the production of the crop which has made those biscuits famous.

Moral: Stick to the bread, pastry and cake 'like nother used to make' and help your state, your ounty and your town, as well as your appetite or the best and most nutritious food obtainable—loft Winter Wheat Flour.

Ask your grocer for soft wheat flour, or just say White Rose, and that is what you will get.
