The Safe Anti-Freeze Glycerine

A few facts concerning Radior Glycerine.

G. P. A. Radior Glycerine is refined glycerine especially adapted for automobile use.

It prevents freezing.

It will not evaporate if properly sealed, and no filling will last an entire season or even longer.

It is odorless, non-inflammable, and non-toxic in any amount.

It is being put out in thirteen grades above that of water, with means provided for boiling and re-boiling on warm days.

Automobile manufacturers recommend glycerine for anti-freeze purposes, of which G. P. A. is the best form.

We also carry Thermo Alcohol which is also recommended for radiators.

Why Life Insurance Is Bought

Life insurance is its fundamentals is a practical evidence of love and unselfish devotion. It is bought by the men and women who would guarantee for their families the protection and comforts of life.

It is bought by those who would protect their own old age and at the same time protect their loved ones against want and dependency.

Over One Hundred Billion dollars of Life Insurance is in force in our country and love is the great motive power that makes a tremendous portion of this amount, now in force.

Dependable Companies, Rates Reasonable.
