Kind Words

Here are some remarks from customers. We quote them just about as we heard them. It's the best advertising in the world but we would rather they would tell you, and they will if you

"Why do people buy cheap foreign flour when they can get the best that's made right here at home. White Rose is good enough for me or anybody else."

"I have been getting some of your mill feed and it's the best I ever saw. It is worth five dollars a ton more than some of the shipped in stuff I had been buying."

"We tried that 50-50 Scratch you are making and it's so good I want a ton of it." Another says, "Send me ten sacks and I'll want more when its gone."

"The best corn meal I can get is made at your mill. Most of the others are sticky and lifeless. I love my hoe-cake and I know my meal."

"Your hammer mill is a good thing for the community. We can get our feed ground now and see what we are getting. And that hog feed you are making sure does the work. Book me for another ton."
