School Days—and the Morning Rush

Now that school days are here again, are you harassed by the morning rush five days a week to get the children off to their classes?

Preparing breakfast on an electric table saves a great many trifling matters and help you start the day happily for every member of the family.

The table stove is a marvel of convenience. It uses only a small amount of electricity. It is built to give many years of trouble-free service. It costs only a few dollars to begin with.

A demonstration without obligation will be given cheerfully at any of our stores.
