CARLISLE MILL & SUPPLY CO.
WHITE ROSE
Made From Pure Winter Wheat
EVERY SACK GUARANTEED
CARLISLE, KY.
WHITE ROSE PATENT

To meet a situation prevailing here we have reduced the price of WHITE ROSE FLOUR so that you can now buy it from your local grocer for

**One Dollar Per Sack, Cash**

This is just another move which will help to reduce the cost of living and at the same time assure you getting a quality product which is worth every penny you pay for it — and more. At this price for a flour of the quality of White Rose we believe it should be used in every home in Nicholas county, not only because it is a home product, but because of the sacrifice price made for your benefit. All the home grocers are co-operating in this effort to give you something better for less money and it will be to your advantage to specify White Rose when you call for flour.

### SOY BEANS

We believe it would pay you to try a small acreage of Soy Beans. We have the seed in the early hay varities. Carlisle Mill & Supply Co.

### NO DUST

We are having our Pocahontas prepared with a mixture of Calcium Chloride and water. This spraying is done at mines as the coal passes over the screens and thus giving the coal a thorough coating of Calcium Chloride which draws from the atmosphere a moisture which prevents the fine particles of dust to cling to the lumps of coal, and also keeps the dust through the air, and which in many cases finds its way through the doors of the house. This treatment is effective during the entire months. Keeping down the fine dust when firing. Calhoun Chrisman Investment does not in any way affect the burning quality of the coal.

Dorthea Pocahontas is worth your consideration. Fisher Henry's Coal Yard. Phone 87

Fresh arrivals in spring millinery 58CARL STORE.

### NOTICES

The Intermediate and Primary grades of the Myers school will give a play, "The School Of Old Hickry Hollo." Saturday evening, April 19, at 7:30 o'clock. Admission, Adults, 25c; children 15c.

### TOBACCO

For good tobacco use Swift's 3-8-6 or 4-12-6 with potash from Sulphate only. The above figures denote the percentage of nitrogen, phosphoric acid, and potash, all 2 are plant foods. Phosphoric Acid matures the tobacco, helps prevent rank growth and too little Nitrogen is likely to cause a poor filling. Potash is necessary for good quality and color. Too little potash makes a light, mottled leaf of poor quality. The Nitrogen in Swift's Red Steer Fertilizer is not derived alone from Nitrate of Soda and Sulphate of Ammonia but nitrogen is derived the plant until maturity, is delivered to the plant in the right proportion up this essential plant food in its turn—Nitrate Soda. Sulphate of Ammonia, Dried Blood, Tankage and Bone Meal. Consult us about how to your fertilizing problems. Phone 87 Fisher Henry's Coal Yard.
