

PAN-A-MIN

Keeps Hens in Laying Trim

Dr. Hess' Pan-A-Min enables hens to convert the maximum amount of food into eggs and profits. It is not a food and does not take the place of feed—but it does make the place of Pan-A-Min when you are using your own farm-grown grain or are buying a commercial feed. You will always get better results by adding Pan-A-Min to the ration.

Costs less than a penny a month per hen.
