Get More Milk - Immediately!

and KEEP ON Getting It

This remarkable dairy concentrate makes good right from the start. Only a few days on Tuxedo Dairy and you see a real increase in the milk flow.

And you keep on getting it - not only more milk per day at a lower cost per pound, but longer lactation periods, and longer life for the cow.

Formulas - ingredients - milking. There's the secret. We have the feed - and you can have the result. Call us.

HINTS TO FARMERS

Through rapid progress in building up the farm, the farmer has been able to increase his income and reduce his expenses. The following hints are given to help the farmer in his work.

1. **Planting Time** - The best time to plant is in the early spring, before the ground has frozen. This allows the seeds to settle in the soil and start growing as soon as the ground thaws.

2. **Soil Preparation** - The soil should be prepared in the fall, before the ground freezes. This allows the soil to settle and the weeds to be killed.

3. **Watering** - The soil should be watered in the spring, before the ground has frozen. This allows the soil to settle and the weeds to be killed.

CRICKETERS CHILDREN

Some of the Best Cricketers in the World are the children of the farmer. They are the ones who are the most active and the most energetic.

1. **Physical Education** - The children should be given physical education, such as running, jumping, and playing games.

2. **Mental Education** - The children should be given mental education, such as reading and writing.

3. **Character Education** - The children should be given character education, such as honesty and hard work.

NEW YEAR WISDOMS

There are many things that we can do to make the new year a better one. We can be more active, more energetic, and more helpful to others.

1. **Be Active** - We should be more active in our work and in our play.

2. **Be Energetic** - We should be more energetic in our work and in our play.

3. **Be Helpful** - We should be more helpful to others in our work and in our play.
