After the First Twenty-five Thousand Miles

THE VALUE of sound design, good materials and careful craftsmanship is especially apparent in the new Ford after the first twenty-five thousand miles. Long, continuous service emphasizes its mechanical reliability and economy of operation and upkeep.

As you drive the Ford through many months and years you will develop an increasing pride in its appearance and a growing respect for the substantial work that has been built into it. From every standpoint—in everything that goes to make a good automobile—you will know that you have made a farseeing, satisfactory purchase.

Wherever you go, you hear enthusiastic praise of the car and this significant, oft-repeated phrase—"I'm glad I bought a Ford!"

When Chicks Are 6 Weeks Old

When chicks are 6 weeks old they need the best feed possible, to fill them out plump with meat and brilliant, glossy plumage. To develop healthy, lively birds in the shortest time possible.

Simco Buttermilk Growing Mash

should be fed when chicks have reached the age of 6 to 8 weeks. Make the change gradually. It is higher in Protein and rich in Vitamins: Buttermilk, Oatmeal, Cod Liver Oil and proper minerals. Customers tell us birds fill out fully a month earlier than birds fed grains and ordinary feed.

For the Allmash System
If you prefer the Allmash System, feed Simco 2 in 1 Allmash Starter and Grower right up to 10 weeks old, when they will be ready for Simco Allmash Layering Food.

Match Chevrolet Company Carlisle, Kentucky

If Every Kentucky car used Gasoline made from Kentucky Crude-Oil . . .

the production of Kentucky crude-oil (one of Kentucky's largest and most widespread industries), would be increased ten-fold, and its prosperity reflected throughout the State;

thousands of dollars of additional revenue would be received by Kentucky land-owners, leaseholders, producers and production companies;

additional men could be given employment by this and other industries, and their salaries would be used for the purchase of food, clothing, luxuries and necessities from Kentucky merchants, and to swell the deposits of Kentucky banks.

In our refinery at Louisville, we use only KENTUCKY crude-oil for the refining of

CROWN GASOLINE

We use Kentucky crude because it makes a high quality gasoline, and because anything we can do to promote the prosperity of Kentucky is reflected in better business for us in this State.

Kentuckians can promote Kentucky oil-field development and prosperity by using gasoline made from Kentucky crude-oil.
