AN UNEXPECTED CONTACT ON NIGHT AT ALL

The Kentucky Legislature has referred the question of the State to the voters of Cumberland Falls. The bill that would enable Kentucky to proceed, through the authority of a major vote, to a region of unpopulated lands...

IT'S NOT THE TALKING PENDING TAXES

The State House today took the principle of the tax on the sale of goods, but the present bill does not touch the tax on the sale of goods, but does touch the tax on the sale of goods, but does touch the tax on the sale of goods...

THE IDE IN THE AFFAIRS OF POLITICIANS

The Governor tells the reporters that the proposition to refer the State to the voters is a good one, but that the present bill does not touch the tax on the sale of goods, but does touch the tax on the sale of goods...

THE KENTUCKY HOME - HELPS THE FARMER

"Being the farmer is to be made in a Kentucky national program. It is a necessary part of the national program, and it is a necessary part of the national program...

Will the DOT FOLLOW THE WILD FIGHT?

Business attorneys admitted in the northwest recently by the Department of Commerce. The bill that would enable Kentucky to proceed, through the authority of a major vote, to a region of unpopulated lands...

ANALYZE THE ALLOWANCE ON YOUR USED CAR

It is a dealer pays you more than the true worth of the car he must make up the difference by extra charges on the new car or re-sell it to some one else at too high a price

PERMANENT value is always better than a temporary bargain in the purchase of an automobile.

It pays to look ahead and consider liability and ultimate upkeep costs, as well as comfort, safety, speed, and beauty of line and color.

Since most automobiles are bought for replacement, the value set on your used car is a factor in importance beyond its frequency. It is given an importance beyond its frequency.

Used cars have a definite market value and you are justly entitled to an allowance based on that value. It is not fair that you receive loss. It is not to your best interests to receive more.

If a dealer pays you more than the true worth of the car he must either re-sell it to some one else at too high a price or make up the difference on the new car. This he cannot do unless he is allowed an excessive profit on the car or on financing, extra equipment and other charges. In either case, you are paying for nothing. The money must come from somewhere.

Furthermore, at least \$75 extra value is given to you in the new Ford in the Triple-Header-proof glass windshield, the Rustless Steel, the five steel-spoke wheels, and the four Houdaille hydraulic double-acting shock absorbers. The unusually large number of ball and roller bearings, instead of castings or stampings, are other features that show the extra quality built into the Ford car.

Because there is no waste, extravagance or undue profit in manufacturing, distribution or selling, every dollar you pay for a Ford carries a full dollar in return. In lower first cost, in reliability and long life, in the low cost of operation, service and replacement parts, the Ford will save you much more than the seeming difference in trade-allowance on your old car.
