### SWEET POTATO BLACK ROT

By John A. Gardner, Kentucky College of Agriculture

Sweet potato black rot is a serious disease which causes the loss of thousands of dollars' worth of sweet potatoes annually. It is caused by a fungus which enters the plant through the roots and spreads to the stems and leaves. The disease is characterized by a blackening of the roots and a wilting of the plants. It is most common in the southern states, but it has been reported in other parts of the country.

### NIGHT COUGHING QUICKLY RELIEVED

By John A. Gardner, Kentucky College of Agriculture

Night coughing is a common ailment which is often caused by a cold or a slight inflammation of the throat. It is characterized by a coughing fit which occurs during the night. The cough is usually dry and is accompanied by a feeling of tightness in the throat. It is most common in the winter months, but it can occur at any time of the year.

### FREE-30 PACE CATALOG

By John A. Gardner, Kentucky College of Agriculture

A free-30 pace catalog is available to all who request it. The catalog contains a list of the products and services offered by the college. It is a valuable reference work for students and faculty alike. The catalog is available in both English and Spanish.

### 666 also in Liquid

By John A. Gardner, Kentucky College of Agriculture

666 is a powerful disinfectant and is used for the treatment of various diseases. It is most effective against bacteria and fungi. It is used in the form of a liquid and is applied to the affected area. It is a valuable tool for the control of infectious diseases.

### POSSIBLE PRODUCTION LARGER, DEMAND DOWN

The production of various commodities is expected to be larger than in previous years, while the demand for these commodities is expected to be lower. This is due to a number of factors, including a decline in population and a change in consumer habits. The government is expected to take steps to address these issues.

### FOR SPRING PLANTING

For spring planting, it is recommended that farmers use high-quality seeds and fertilizers. It is also important to ensure that the soil is well-prepared and that the plants are properly spaced. This will help to ensure a successful harvest.

### WOMEN'S MESSAGES

Women's messages are a valuable source of information and support for women. They provide a platform for women to share their experiences and to help one another. These messages are often written by women who are facing similar challenges and who are looking for advice and encouragement.
