Newest Thing in Beavers

The beaver pup got at North Carolina, arrives here and stays with the boy who got it. He is not just a pet, but knows the will of his owner and will even be for him whenever. The beaver pup cost three months in being shipped.

What Traffic Cop Will Say "Stop"?

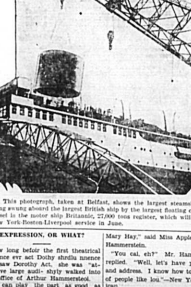

The U. S. Navy battleship USS Tennessee, under way from Norfolk to her port of destination, the West Indies in the Caribbean Sea.

U. S. Gets Largest Crystal Sphere

The world's largest decorative crystal sphere, measuring 10 1/2 feet in diameter and weighing 10 1/2 tons, has been presented to the United States National Academy of Sciences. The sphere shows the striking result of the photographer's attempt to increase a picture of the sun above a regular magnifying glass. The sphere is made of pure glass and is the result of a process which has been tried by the U. S. Navy.

Three Superlatives Get Together

The new power plant at Carlisle, Ky., is the largest ever built in the South. It is a marvel of modern engineering and will supply power to the entire region. The plant is owned by the Kentucky Electric Power Company and is expected to be completed by the end of the year.

Graduates of 1930 - Before You the World

But we hope that you will not go forth into foreign fields to win fame and fortune. We need you right here to help make this community greater. Opportunities abound on every hand, and we, as your lifelong friends and associates, will aid you to the full extent of our ability to make a success of whatever undertaking you may choose. For as you grow and prosper, so will the community ---our home--- grow and prosper. We welcome you, as individuals and as a class, to the business and social life of the community.

Our Interest In The Welfare Of This Community Prompts Us To Sponsor This Message To The People Of Carlisle And Vicinity.

Table with 5 columns of local businesses and services, including R. T. Kirkland & Company, Harper's Garage, Sam T. Howe & Company, Carlisle Mill & Supply Co., and The C. C. Cole Company.
