IT IS THE HEIGHT OF FOLLY TO NEGLECT ONE'S SIGHT

In industry, the amount of material destroyed, and the time lost because of inefficient eyesight is enormous, far greater than one would ordinarily believe. These losses can be greatly reduced, with a consequent benefit both to industry and to humanity, if defective eyes are cared for.

Thorough examinations by an Optometrist will let one know positively whether or not his eyes are free from strain.

FOR A' THAT, AND A' THAT

(Robert Burns)

Is there for honest poverty
Who hangs his head, and a' that?
The coward slave, we pass him by,
We dare be poor for a' that!
For a' that, and a' that,
Our toil's obscure, and a' that;
The rank is but the guinea's stamp,
The man's the gowd for a' that.

What tho' on hamely fare we dine,
Wear hoddin-grey, and a' that;
Gie fools their silks, and knaves their wine,
A man's a man for a' that.
For a' that, and a' that,
The honest man, though e'er so poor,
Is king o' men for a' that.

Ye see yon birkie, ca'd a lord,
Wha struts, and stares, and a' that;
Tho' hundreds worship at his word,
He's but a coof for a' that;
For a' that, and a' that,
His ribband, star, and a' that:
The man of independent mind,
He looks and laughs at a' that.

A prince can mak' a belted knight,
A marquis, duke, and a' that;
But an honest man's aboon his might,
Guid faith, he mauna fa' that!
For a' that, and a' that,
Their dignities, and a' that;
The pith o' sense, and pride o' worth,
Are higher ranks than a' that.

Then let us pray that come it may,
As come it will, for a' that,
That sense and worth o'er a' the earth,
May bear the gree, and a' that.
For a' that, and a' that,
It's coming yet, for a' that,
That man to man, the warld o'er,
Shall brothers be for a' that.
