THAT'S ALL IT TAKES

Mr. and Mrs. Kellar Hall, of Sharpsburg, own the pullets which have set this record. They were hatched March 5 and fed Tuxedo Starting Mash and Growing Mash exclusively until August 20, when they were put on a full feed of Tuxedo Egg Mash. In July the first egg appeared and rapidly increased, until today they have produced 1,511 eggs.

This is a hard record to shoot at, but we believe that any bunch of thrifty birds, given the attention that Mr. and Mrs. Hall are capable of and do give, plus Tuxedo Feeds, from the baby chick to the nest, can hit the mark.

Their expert knowledge of care and feeding for egg production made Mr. and Mrs. Hall the subjects of a broadcast over WLW recently, and we are always glad to know that the more they know, as well as any other expert poultrymen, the better they like Tuxedo Feeds.
