**SEE ACTUAL FORD CAR SAWED IN TWO**

Women as well as men show great interest in this revelation of vital mechanical parts that are seldom seen. Shows valves, pistons, cylinders—fuel, cooling, ignition and lubrication systems—how the body, seats and upholstery are made—how the different layers of paint are put on. There's also a cut-away Ford truck chassis. Many things you have always wanted to know clearly explained.

**ALSO SEE**

- First complete showing of all the new Ford cars in this vicinity. Includes the smart new system—how the body, seats and upholstery are made.
- How the Hotchkiss double-shafting hydraulic shock absorbers cushion against hard shocks and why they are called double-shafting.
- How the crankshaft and camshaft are made—from the original steel bar to final machining and polishing.
- And many other features which make this free show well worth your time.
