RETROSPECT

For the past year I have published in this paper a series of articles dealing with the city. They have been short and simple and mainly for the benefit of the boys and girls who are now one of the most precious organs of our body.

Almost every person is inclined to neglect the care of their teeth. It is ascertained that they cry out for help.

What is the result?

Myriads of people are suffering from untold eye troubles. They have also allowed their eyes to be neglected until the sight has become so over-strained that it will be difficult to restore them to normal health.

To warn the public against eye neglect I am writing these articles, and I intend to continue writing them so that I may emphasize that warning.

To be absolutely sure about your eyes you should consult an optometrist at least once a year.

W. C. T. U. Lecture

—"Prohibition Gone or Is America a Civilized Nation?" This is the subject of a lecture to be given by Rev. B. H. Cunningham, under the auspices of the W. C. T. U. in the Christian church, Tuesday evening, April 21st at seven o'clock. Mr. Cunningham features on this program, but it is hoped that everybody and women will make this opportunity to hear a message on this subject which is so vital to us. No matter what your opinion may be, come and hear Mr. Cunningham. He will know. Rev. Cunningham has viewed this matter from all angles and is well known, country and city. He also has kept close track of it in every country as well as in Europe and Canada. Mrs. Ella Taylor Smith will sing beautifully and Rev. Cunningham says that if the people don't manifest interest, he will bring that great moving picture to this city with the wonderful story of the temperance school season. The title of the picture is "Delicious," and was produced by one of the leading motion picture producers in this country, and the characters protrayed by leading actors and actresses. It will be made possible for every boy and girl and man and woman to see this great picture of seven or eight reels.
