A CARD

While the result of the election was somewhat of a disappointment, as a Democrat I bow to the wishes of the majority, though it was from another county. In the future, as in the past, I will be found loyal to my party.

To the 1,700 voters on the list, without being bought or coerced, giving me a majority in Nicholas county, I tender my sincerest thanks and assure you of my appreciation.

Fight Over Maysville Bridge Approach Seen

The Buckeye State and her Southern neighbor, Kentucky, are on the verge of an interstate bridge controversy.

A toll bridge is being built by the State of Kentucky across the Ohio river between Maysville, Ky., and Aberdein, Ohio. The dispute involves the right of Kentucky to come into Ohio and condemn land for the northern approach to the bridge.

The Ohio bind the State of Kentucky seeks to condemn is owned by the Maysville Bridge Company of Cincinnati, an Ohio corporation. The Kentucky Highways Commission failed to reach an agreement with the bridge company on the price to be paid for the land as the commission several weeks ago, went before Judge John Q. Quinlan, Brown County, Ohio.

Judge Quinlan held that special acts of Congress and the Kentucky Legislature, under which the bridge is being constructed, were valid, and ordered the Sheriff to draw sixteen names from the jury wheel to try the case.

The bridge company appealed today to the Ohio Supreme Court, asking for a writ of prohibition to prevent Judge Quinlan from hosting the trial. The Supreme Court will hear the application next Thursday.

The bridge company's fight against condemnation proceedings is based on the allegation that the special legislation is unconstitutional and that Ohio statutes do not confer any right of condemnation on the Common wealth of Kentucky.

Too Much Tobacco Grown American President Says

A decided overproduction of tobacco Friday was predicted by Chester W. Hill, president of the American Tobacco Company, in testimony before low prices paid for tobacco this year. In a letter to Senator Thomas J. Hill said the cigarette industry is virtually overstocked with tobacco.

"All cigarette manufacturing companies in the United States combined, are about 25 per cent of the freight to be leaves produced in the 1931 crop," the letter said. The remainder is said for export."

World conditions generally, Hill says, have seriously affected export demand and it is generally agreed, primarily that is at the root of the problem of the American growers of tobacco.
