THE SPIRIT OF PROGRESS

This is essentially the age of progress . . . the age when that which does not move forward quickly goes backward.

We want this community to go forward. To make it go forward, grow and prosper in the way we want it to do, individual efforts of each member of the community, urged ever onward and upward by the guiding light of progress, is necessary.

Doing faithfully each day, our share in this onward movement is not difficult . . . let us do it.
