PATRIOTISM

"patriotism: n. Love of country; devotion to the welfare of one's country; the virtues and actions of a patriot; the passion inspiring one to serve one's country."

Devotion to the welfare of one's country means, of necessity, devotion to the welfare of the community in which one lives. In time of strife the patriot serves his country in the battle lines, in time of peace he serves no less nobly at home. The patriot takes a vital interest in everything that affects his community, he votes in its elections, he is proud of its schools, its churches, its business enterprises and its people. It is well for us of Carlisle who would be true patriots to keep before us in our daily affairs an ideal of cooperation and community harmony that will be a credit to all.
