A Thrill That Comes Once in A Lifetime.

One of the thrilliest things that ever came to a student in his short life happened to me at the age of eight years last year. At that time I was eight years old, and I was at the school where I am now. I had just finished my lesson, and I was sitting at my desk, looking at my book. I was thinking about the lesson I had just learned, and I was wondering how I could do it better next time.

Along The Road To Victory.

You remember the saying that goes from time to time about the road to victory? It is that the victory is won in the details. It is not won in the grand gestures, but in the small, unassuming acts that are done every day. It is in the little things that we do, over and over again, that we win the day. It is in the consistency of our effort, in the persistence of our spirit, that we find the path to success.

A SOUND INVESTMENT

Real estate has always been and will be held the highest type of sound investment. Its safety lies in the fact that its value increases and it is not subject to depreciation. It is a safe investment, and it is a profitable one. It is a sound investment, and it is a wise one. It is a sound investment, and it is a wise one.
