Promotes Comfort Chases Gloom

Make Your Home More Cheerful With Plenty of Good Lighting

Adequate lighting in your home saves your eyes by preventing undue strain. It is restful to the nerves—beautifies the rooms with a soft glow—makes the place more inviting, cheerful and comfortable.

And remember—the more electricity you use the less it costs per kilowatt hour. Every new job you give electricity to do lowers the price per unit of energy.

Kentucky Utilities Company

Incorporated

Covering floor with a thin film of sand is a new idea in tree preservation.
