Man-Size Job Men must eat. Trainloads of butter, eggs and poultry move every week into New York and Chicago. Car-loads move every week into hundreds of smaller cities. Shat off the supplies for a brief time and millions would go hungry.

would go hungry.

Men must sell. Trainloads of produce move week out of the farming centers. Stop buying little while and eggs would grow old, butterfat its value, poultry pass its prime. Hundreds of t sands of producers would lose money.

on demand everywaere.

Aman-size job? More than that. Swift & Company
makes this a 20,000-man-size job. That many, and
more, of its employes devote all or part of their time
to baying, processing, selling and distributing poultry,
dairy products and eggs.

dairy products and eggs.

Over a hundred Swift produce plants pay cash for what the farmer produces. Leased wires 7,500 miles long keep experts informed where demand is greatest and supplies are shipped to these points. Branch houses and car routes serve 10,400 cities and towns.

A 20,000-

and of produce, are lowered.

Son't & Company is a national marketing institution. It is also be the produce plant institutions.

It is also be the produce plants—more
than 690 in all—employ local men whose pay check
help to keep their communities prospersors. A recisa

Why Don't You Use All the Electricity You Pay For?

One Kilowatt-hour Will Operate Any One of the Following:

Many of you who read this advertisement pay the minimum electric bill each month. But you don't get your money's worth because you fail to use all the electricity you buy.

For example: Our minimum rate in many communities is \$1.00 per month, which entitles the customer to 10 kilowatt-hours of electricity. Yet many of the minimum rate customers use only 5 or 6 of the kilowatt-hours they pay for.

Are you one of these custon who is short-changing himself?

If your home is well lighted, then you can use the rest of your electric current to help get the housework done quicker, easier, more conven-

Electric household appliances are not costly. They can be bought on easy terms. They don't need much electricity for operation. The list at the left will show you how much

Be thrifty. Get more service from the electricity you buy.

Electricity is cheap!
