**THINGS PEOPLE WILL DENY**

(Woodford News)

Recently I was much interested in reading an article on "Jude the Obscure" in the November issue of the "Kentucky Farmer," which is published by the University of Kentucky. In the article, the author, Dr. J. M. Smith, of the University of Kentucky, states that "Jude" is a common name for a certain kind of snake which is found in the mountains of the State. He says that the snake is a dangerous and poisonous creature, and that it is often found in the mountains of the State. He also says that the snake is a common name for a certain kind of snake which is found in the mountains of the State.

**THE GARDEN**

**GARDEN PLANNING I**

The first step in planning a garden is to decide what you want to grow. This will depend on your soil, climate, and the amount of time you have to spend on the garden. Once you have decided what to grow, you can begin to plan the layout of the garden. It is important to consider the spacing of the plants, the direction of the rows, and the use of paths and borders.
