Do You Use Baking Powder Printing?

Do you use stationery furnished you by the jobbers and manufacturers of Baking Powders, Tires, Coffee, Floor Polish, Spark Plugs, Laundry Soap, Overalls, Roof Paint, and a thousand and one other products? The stationery which bears the large advertisement of the product, and your own name in a LESS conspicuous line?

Better let your stationery advertise your own business and your own personality and buy it of your printer who will give you a better job at a lower price. He will not throw in any spark plugs or baking powder but he will give you a good clean job of printing which reflects your business and personality. The best advertisement you can give yourself and your business is to proclaim the fact that you are loyal to home industries, including the home print shop.

It doesn't cost any more.
