There Is Food Value

In Every Sack Of

White Rose Flour

Life placed within the wheat grain just what is necessary to make fresh the Staff of Life. When these elements are brought in milling the food value of the flour is greatly diminished. When chemicals and other ingredients are added it is "robbing up" what nature has supplied.

WHITE ROSE FLOUR retains all the natural elements necessary to make a perfect and healthful bread.

Nothing is Added Nothing Taken Away

THINK OF IT

THINK OF IT

THE FORD V8 TRUCK
From Atlantic City, N. J. to Lang Hill, N.C. 2945 miles in 71 hours. With full load and four men, and made possible repairs, and used only 1 1/2 quarts of oil.
This run was made in less than that of the fastest regular trucks.
A truck that can do it has a good truck for you to buy in 1934.

When you go to buy your old truck don't think so much of the price you pay to get for the old one, but think of what you are getting in the new one.
Come in and see how you before you try.

COME TO OUR SHOP
