WHITE ROSE PATENT

White Rose Flour

The processing tax on White Rose Flour will be no more than on the cheapest grade of flour.

Under these circumstances the percentage of increase will be much less on the best grades and, quality considered, it will be economical to use the best—and that's White Rose, made of wheat grown in Nicholas and adjoining counties—where the best wheat grows.

There is no tax on wheat exchanged for flour and this is a big saving for the producer.

No Insurance!
Suppose this were the heading of a newspaper article about YOU!
After the fire, or the burglary or the accident, the words "no insurance" have a very sorry sound. They are the frank admission of someone's lack of foresight. Remember that regrets are unsatisfactory substitutes for sound insurance.
