STUDEBAKER raced 28 cars off the track at Indianapolis!

Out of 42 entries only 14 finished... and 7 were Studebaker powered! 5 were 85% stock Studebakers which went through entire race without a repair! THESE are Studebakers... and two privately entered cars with Studebaker engines—finished in the first two. Not a repair was made to any car in the Studebaker team throughout the 500 miles. No other peering ground in the world could give a car the test the Studebaker took in this faster race in Speedway history. Why not come in today and drive a new Automatic Studebaker so that you can see for yourself why Studebaker engineering is so flawless and Studebaker racing so superior! Biggest June Sales Since 1931! Studebaker June sales were 147% greater than March—the fact, greater than any June since 1928. And sales already exceeded those of any July with substantially surplus June. Put your money on a winner. Come in and let us put a price on your present car or order.
