Cincinnati Reds To Play Maysville Today

For the first time in many years, the Cincinnati Reds, the Ohio Valley's hope for the national baseball championship, leave their stamping grounds at Redland Field to do battle with a minor league monster tonight.

Many years ago the Reds visited Maysville, and Maysville won, but that was in the days when baseball in this city was baseball.

Maysville has an unusually good team this year, a team which is composed of some of the best semi-pro players in the Ohio valley. The club has won seven games in twenty-one starts.

President Weil, of Cincinnati, promised a large delegation to Maysville for the game, with Big Elpea Riley slated to do the pitching. Bottomley, Hafey, Rice and other Redbirds will be in the lineup.

Maysville is planning to make the appearance of the Reds a general holiday. Business houses will be closed in the afternoon and a new attendance record for Forest Avenue Park has been predicted.

One Trustee For Each Sub-District Elected July 1

One school trustee for each subdistrict of the county will be elected at elections to be held at the various school houses on Saturday, July 1. Under the new law passed by the 1932 legislature, the terms of the each district were elected last year and drew for terms, one serving one year, one serving two years and one three years. The terms of those who drew one year will expire, and an election will be held each year for a member for a three year term.

In changing from a one-trustee to a three-trustee system, the legislature had in mind the difficulties of conducting an election which practically meant electing a teacher by popular vote. The new law places the authority to name the teacher in the trustees, provided the applicant is qualified.

In this county as well as throughout the state, the election of school trustees will develop some interesting contests, for in spite of the efforts of the legislature the politicians are scarce, because the trustees recommended their daughter, sister, wife or some other relative, and not because of any disqualification of the more experienced teacher.

Still school teachers are chosen by a competent board strictly upon their merits, the schools of Kentucky will never be out of politics, no matter how much school people advocate it.

It has been reported that solicitors for a Chicago printing concern are soliciting local candidates for cards and other printing. The card is of cheap quality and is priced lower than the high grade cards The Mercury is printing. It would appear that a candidate asking for office in Nicholas county is pursuing a foolish policy by having his cards printed in another state.

Licking river and private ponds in Nicholas county were filled with seekers Sunday seeking relief from the intense heat. D. W. Sapp, scoutmaster at Camp Black Hawk, said more people visited the camp Sunday than ever before for a one day. SANCTUARY

To hope, and hope again;
Face the last ordeal of the changing hours
Active with vision or stung dry with pain,
Reckless of toil, unstinting of your energies;
And when success, elusive fails once more,
Work, as you worked before.

To wait, and wait again;
Not knowing if of waiting there'll be fruit,
Fighting the midnight doubt, torn by the strain
Of energies enchained and protest mute;
And when the sterile days slip hungry past,
Have patience at the last.

To dream, and dream again;
Climb at your will to realms where you may keep
The once-perceived ideal sloof from stain,
Singly in judgment; so from the days to reap
Freedom from fate and self, serene, alone.
Live, with a life your own.
