If It's The Best You Want, Get- White Rose Flour

Flour that is void of artificial and harmful ingredients not only makes more tasty bread and cakes, but is more healthy.

Chemical solutions, contained in many flours, are applied to give those flours a chalky-white appearance. In accomplishing this end, however, most of the flavor and taste value is burned out.

White Rose retains for it's users all of the healthy substances which are contained in wheat. It is not "doctored" but comes to you as it should.

It's extravagant NOT to buy a new Griffon Suit

In the first place, you need a new suit in your business. Fools judge you by appearance; to succeed, look successful.

In the second place, if you put off buying a suit until next season, you'll pay a much higher price. That's the "hardwiring" on the wall—you can see it clearly in every industry.

So—when quality is so high and price is so low—here and now is the place and time to buy!
