Lexington Seeks American League Convention in 1935

According to the American League, Lexington, Kentucky, will be the site of the 20th annual convention of the American League in 1935. The city has been selected as the site of the convention because of its central location, its fine hotels, and its excellent transportation facilities. The convention will be held at the Lexington Hotel, and will attract a large number of delegates from all over the country.

Wootton Predicts Eight Democratic Congressmen

Democratic congressmen will be elected in eight of the nine Kentucky congressional districts in the general election of November 6, according to Wootton. He predicts that the Democrats will win in the 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, and 8th districts, while the Republicans will win in the 9th district.

Public Service Body's Rules of Complaint Made

The Public Service Commission has adopted a set of rules governing the procedure for filing complaints against public utility companies. The rules provide for a fair and equitable hearing of all complaints, and for the prompt disposition of the same. The rules also provide for the appointment of a hearing officer to conduct the hearing, and for the filing of a decision by the commission.

Modernization Program To Aid Farm Projects

The Federal Housing Administration has announced a program to aid farm projects. The program provides for the construction of modern farm buildings, such as barns, sheds, and silos, and for the improvement of farm roads. The program is designed to help farmers improve their living conditions and to increase their productivity.

39 Nicholas Farmers Sell Lamb at Lexington

Thirty-nine Nicholas County farmers sold a total of 507 head of lambs at the Lexington market. The lambs were sold at an average price of \$10.00 per head. The farmers were pleased with the sale, and expect a good season for lambs.

The Farm and Home

Truth will be found in many parts of the country. The farmers who are successful are those who are honest and who are hardworking. They are the ones who are willing to take the time and effort to do things right. They are the ones who are willing to take the risk and to try new things. They are the ones who are willing to work hard and to sacrifice for the good of their families and their communities.

A Prophecy Fulfilled

Forty years ago a bill proposed in the Kentucky legislature would have made the state a free state. The bill was introduced by a man named John C. Hunter. He was a member of the Kentucky legislature at the time. The bill was passed by the legislature, but it was vetoed by the governor. The bill was never enacted into law. However, the bill was a prophecy that was fulfilled. The state of Kentucky is now a free state.

The Girl They Didn't Forget

By MARGARET R. TOMSON

She was a beautiful girl, and she was loved by many. She was the girl they didn't forget. She was the girl who was always there for them. She was the girl who was always there for them.

Bald Hill

Bald Hill is a beautiful area with many homes for sale. The homes are large and beautiful, and they are in a great location. They are perfect for anyone who is looking for a home in a beautiful area.

Tobacco Crop Reduced by 346 Million Pounds

The tobacco crop in the United States has been reduced by 346 million pounds. This is due to a number of factors, including a decrease in the number of acres planted and a decrease in the yield per acre. The reduction is a significant one, and it will have a major impact on the tobacco industry.

STONY CREEK

Stony Creek is a beautiful area with many homes for sale. The homes are large and beautiful, and they are in a great location. They are perfect for anyone who is looking for a home in a beautiful area.

We've got GOOD NEWS for RUBBER

There's the greatest news of the year for our owners. U.S. has developed a tire compound superior even to its amazingly long-wearing TREADLESS RUBBER. This improved tread rubber is tougher and more resistant to destructive heat action than any we have ever offered before! It provides an extra larger margin of extra miles. It brings to the tire greater safety from blow-outs—and it offers far more extra miles to puncture.
