

Contracts Modified To Permit More Crops

It is possible to increase crop production in "high spots" on the farm, the University of Kentucky says in its report on the results of the 1933-34 crop year. The University of Kentucky says in its report on the results of the 1933-34 crop year. The University of Kentucky says in its report on the results of the 1933-34 crop year.

THE GARDEN

WINTER PLANTS

By J. W. Gardner, Extension College of Agriculture

It is a common mistake to think of winter plants as being those which are in bloom during the winter months. In fact, many of the plants which are in bloom during the winter months are those which were planted during the summer months.
