Expansion In Payrolls In Kentucky Is Shown

Expansion of industrial payrolls in Kentucky is indicated by a report compiled by the Workmen's Compensation Board, which included \$2,000,000 in the first three months of the present year. The report is the first since 1927, when the state's insurance department first began the practice of publishing the figures.

The Workmen's Compensation Board is maintained from a fund raised by levying an assessment of 1 per cent on all premiums paid by employers for insurance against the liability to employees in case of work-related injury or death.

High School Doings

Sixth Grade

Mathematics was credited by the sixth grade's display last week on the subject of "Money." The display was the study of German products. It was the first of its kind in the school.

Manufacturers first began the practice of publishing the figures. The first issue was published in 1927. It was a list of 100,000 jobs in the state.
