We are often asked: "How Do You Make WHITE ROSE So Good?"

Carlisle Mill & Supply Company
We are often asked: "How Do You Make WHITE ROSE So Good?"

Our Answer
WHITE ROSE is good because of the following qualities:

PURITY: It is not bleached with chemicals to a chalky white deadness; the healthful oils of the wheat are retained, thus giving White Rose a pure, rich mellowness.

GOOD WHEAT: The soil of Nicholas, Bath, Fleming and Mason, because of favorable conditions, is well adapted to raising of excellent wheat. Our wheat comes from this territory.

CLEANLINESS: We pride ourselves on the cleanliness of our mill and sincerely invite your inspection. Every precaution is maintained to uphold our high sanitary standard.

EXPERIENCE: Through years of experience we have learned the secret of proper blending—a secret essential in the manufacture of fine flour.
