IMPROVED UNIFORM INTERNATIONAL DAY SCHOOL Lesson
Lesson for August 11
DANIEL
Read the story of Daniel in the lions' den. How did he survive? What lesson do we learn from his faith? How can we be like Daniel today? Write a story about a brave person. Sing the song about Daniel. Pray for the world.

Harnessing Electricity to Make Radium
Experimental Laboratory at Mount Hill, Mass.
Tests Being Conducted
SINCE the discovery eighteen months ago by French physicists, Jean Frederic Joliot and his wife Irène Curie-Joliot, daughter of the late Marie Curie, of how to make some ordinary elements radioactive, chemists and physicists have attempted to harness electricity to make radium.

Fall Good Time To Sow Alfalfa
August is perhaps the best time to sow alfalfa. The soil is warm and the weather is favorable. Alfalfa is a valuable crop for the farm. It provides food for the stock and improves the soil. Sow it in rows 18 to 24 inches apart. Use a good fertilizer. Water if necessary. It will be ready for cutting in 60 to 90 days.

The Winter Vegetable Store
By John B. Gardner, Kentucky
Most of the vegetables for the winter are ready to be planted now. The garden should be prepared for the winter. Plant hardy vegetables like carrots, parsnips, and kale. Use mulch to keep the soil warm. Water the plants regularly. Harvest when ready.

Scientists Record The Songs Of Rare Birds
Expedition in the Southwest Records Voices of Unusual Species Before They Extinct
Baldwin A. Allen R. H. Henshaw, Associate in Ornithology at the University of California, and his expedition have recorded the songs of rare birds in the Southwest before they become extinct. The birds include the California condor, the San Diego redwing, and the California quail. The recordings will be used for scientific study and for the purpose of conserving the species.

THE FAEN AND HOBI
The faen and hobi are two of the most interesting and beautiful of the birds of the world. They are found in the mountains of the Himalayas. The faen is a large, powerful bird with a long neck and a sharp beak. The hobi is a smaller bird with a more delicate appearance. Both birds are known for their beautiful songs and their ability to fly at high altitudes.

Leave Blotches Long In Summer
Blotches on the face are a common skin condition. They are caused by an allergic reaction to sunlight. To prevent blotches, use a sunblock and wear a hat. Avoid sunbathing during the peak hours of the day. Use a mild soap and avoid harsh cosmetics. The blotches usually disappear in the fall but can recur in the summer.

Don't Blame Milk, If Its Flavor Doesn't Suit You
The flavor of milk is determined by many factors, including the breed of the cow, the quality of the feed, and the weather. If you don't like the flavor of your milk, try different brands or types. Some people prefer whole milk, while others prefer skim milk. The flavor can also be improved by adding a little salt or sugar. Don't blame the milk, blame the conditions.

MILK VICES
There are several vices that can be harmful to the health of the milk producer. These include smoking, drinking alcohol, and using drugs. These substances can be passed to the milk and can be harmful to the consumer. The milk producer should avoid these vices to ensure the quality and safety of the milk.

AGRICULTURE
The success of agriculture depends on many factors, including the quality of the soil, the weather, and the skill of the farmer. The farmer should use good farming practices, such as crop rotation and proper fertilization. The weather can be a major factor in the success of the crop. The farmer should be prepared for both good and bad weather.

Large Chamelion Aged
A large, colorful chameleon has been discovered in Madagascar. The chameleon is known for its ability to change color to match its surroundings. This particular chameleon is much larger than most and has a unique color pattern. It is a valuable specimen for scientific study.
