Twenty Years SELLING Tuxedo Feeds

As long since convinced us that when we deliver a bag, or a ton, to a customer we have sold him something which gives value received for every penny of the dollar he has paid.

Tuxedo Feeds are made of the finest quality grains and concentrates and do not contain the adulteration of dirt, sand, sweepings and cleanings which are so often found in many of the so-called cheap feeds on the market.

We warn our customers to beware of these low grade feeds. If you will carefully read the analysis on these tags, then take your pencil and figure out the adulteration, you will find that the actual feed left is costing you more than the high grade Tuxedo.
