"WHY SHOULD I ADVERTISE?" You Ask

Here's An Answer:

The merchant who says that everyone knows his place of business and therefore he doesn't have to advertise may be found right here in Carlisle and other communities in the county. This same merchant also says that customers come to him when in need of the goods he handles, so why should he waste money in advertising? An answer has been made of that question by a progressive merchant. Advertising man no doubt stumbled into places of business and there found pleasant surprises. "Why should I advertise?" as follows:

"Everyone in this community knows all the goods I handle, so what's the use of reporting the news, what's the use of having a newspaper?"

If the community can get along without a newspaper, it can get along without a number of other things which are valuable for instance: the adults are educated and can teach the children, thus doing away with the need of schools. The parents are religious, therefore they can fellow the young ones in the creeds, thus doing away with churches. Folks can learn about the existence of persons whose bodies no longer produce sex hormone supports this belief.

Fiji Islanders and American Indians who have been living on soft foods of the white man's civilization are found to show signs of tooth decay.

Diabetes is over seven times as prevalent among generally normal persons as among epileptics, compared with 50 in 1931, 38 in 1932 and 26 in 1933.

One-third of the area of the continental United States is forest or potential forest land, according to the chief of the Forest Service.

The theory, partly bare and partly covered with ice, has been proposed to explain the mysterious "Bay of Whales" in the Antarctic by a Norwegian ship captain.

The moon's attraction is slowing the earth's spin and eventually the latter will rotate only once a month and will always keep the same side toward the moon, according to Dr. H. B. Nicholson, of the Mount Wilson Observatory.

The total number of eligible voters in the United States is variously estimated at from 75,000,000 to 75,000,000, of which 39,479,000 voted in 1932 and only 29,000,000 in 1934.

SUMMER SHOWER

(Lionel Weagant)

All the garden after rain,
In fine-blown glass and porcelain:
Darting birds adroitly chidden,
Gleaming signatures in flight;
Blossoms carve above their stems
Smooth and secret diadems.
Tapering boughs are linened to gold
Where leaves ripple, fold on fold.
The garden, washed in lambent air,
Becomes mysterious and rare.
We who venture here must pass
Hushed and breathless through the
grass.
In the crystal bloom and bird
Softly shatter at a word.
