Harper's Garage

LITTLE ROCK

Mr. William Brennan, LaGrange, Tenn., was the guest of Mr. and Mrs. C. H. Wain on the week end.

Because the effectiveness of Bureau spraying depends on complete coverage, operators who maintain regular spraying should use the most effective of these sprayers.

When the weathering of the ground comes to the plant the work is to be done in the morning, and the use of a sprayer of new design is to be used.

BEAVER

(Mrs. George L. Gosson, Cur.)
Mrs. Alice Stone spent Sunday afternoon with Mrs. L. L. Wain.

SALTWELL

(H. C. Mattox, Correspondent)
Rev. J. H. Finch preached the benevolent sermon for the back school graduates at the church at Henderson Sunday evening.

Phone 139 Carlisle, Ky.

WITH OR WITHOUT DELUXE EQUIPMENT
A FORD is always a FORD V-8
EVERY FORD CAR HAS:
—the same, economical, 85 horsepower V-8 engine.
—the same, new, Comfort-engineered Chassis.
—600 x 16" air-ballon tires and Safety Glass all 'round at no extra cost.

IMPORTANT FORD FEATURES COMMON TO ALL BODY-TYPES
• 85 horsepower, V-8, 8 cylinder engine with aluminum cylinder heads and dual, downward exhausts.
• 123-hp spring for riding ease on 410-cubic-inch displacement.
• Torque-Drive.
• Front seat 50 1/2" wide... Ample leg space in all models as no extra cost.
• Welded steel-pipe wheels, 4" rim.
• All-steel body welded into one piece.
• Slip, positive brakes with 12" drums and more braking surface per pound.

IT is common practice, nowadays, to find two quite different automobiles sold under the same name. This difference will run all the way from a difference in cylinder, chassis and body design to a difference in the number of rollers, steel and body. No real difference exists between our Ford V-8 and another Ford built only one size of automobile with the same V-8 engine on the same 112-inch wheelbase. The Springfield of all Ford V-8's is 123 inches and all passenger cars and trucks have the same springs in the "Comfort Zone."
