Amnesia Victim Found Wandering On Highway

Suffering from temporary loss of memory, William Eldred, 21, Lawrenceburg, senior at Transylvania College, was found by the Fayette county patrol wandering along the Nicholasville pike near the Jessamine county line about 9:30 o'clock Tuesday night.

The youth, a son of Rev. W. G. Eldred, pastor of the Lawrenceburg Christian church, was unable to give his name or any other information to County Patrolman Elmer Warren and T. F. Fitch.

The officers found in his pockets, however, evidence that he was a Transylvania student, and took him there, where friends identified him. He was taken to B. Joseph's hospital and later his father came and took him home.

The memory of the amnesia victim was reported to have improved when he was returned home to familiar surroundings. Today, he was reported resting comfortably.—Lexington Leader.

Work On Road In Fleming Is Stopped

R. P. Duvall, of Mt. Sterling, state highway maintenance supervisor, issued orders Monday to suspend work on the Hilltop-Flemingsburg road, a side road branching off from State Highway 32 which leads from Flemingsburg to Carlisle.

Orders to stop the work were received by Charles Little, construction foreman. While no reason was given, Fleming county people attributed it to the fact that the section affected went heavily for Chandler.

The eight mile stretch of road was being built on force account with the order for no contractors have been issued by former Commissioner A. P. Plummer. The road has already been graded and a portion of it rocked. It would have been completed by Thanksgiving.—Maysville Independent.

Johnson Thanks Voters For Support Given Him

"I deeply appreciate the vote given for by the Democratic Kentucky and Nicholas county especially" said Keen Johnson, Richmond, publisher, who won the Democratic nomination for lieutenant Governor in the recent primary.

"I realize that this expression of confidence in my name was a great responsibility. I will try to justify that confidence and acceptably meet those responsibilities, he continued.

My success in the primary was in no sense a partisan victory but was due entirely to my good fortune in having numerous loyal friends throughout the state who regarded me as an acceptable person for the office a month, and worked enthusiastically in my behalf. I still wear the same size hat, but have an increased appreciation of my friends."

Democrats of Kentucky have selected a good ticket. It is worthy of whole-hearted support in the final election. Differences and disagreements of the primary should be forgotten. Every effort should be made to restore harmony in the party and unite under the leadership of Happy" Chandler for the final campaign. The best interests of Kentucky and the nation demand election of the Democratic ticket."

No Substitute For Milk; Food For All

Milk is the one food that does not have a substitute and should be included in the daily diet of everyone, declare nutrition specialists at the College of Agriculture, University of Kentucky. It is the best source of calcium, which is essential for the development and hardening of bones and teeth. In fact, it is difficult for the mother to supply sufficient calcium in the diet of her children unless a generous supply of milk is used daily.

Milk is also a good source of protein or muscle building material. One quart if milk daily will furnish from one-half to two-thirds the amount of protein needed by the growing child.

The butterfat of milk is an excellent source of vitamin A. which has been found to be necessary for the normal growth of children and the health of both children and adults.

Recent studies have shown that milk is a good protective food against pellagra.

Every growing boy and girl should use four cups of milk daily and every adult two cups. If the individual does not want to drink milk, it may be used in the preparation of other foods such as vegetable soups, creamed vegetables or meats, pudding and other deserts.

Tobacco Checks Due October 1

Rental Payments For The Producers Participating In Plan Expected To Arrive Early Next Month

Rental checks for burley tobacco producers who are participating in the 1936 AAA production control program will be received by county agents in Kentucky on or about the first of October, it was indicated here today.

A few of the checks, representing payments of $20 and more for land taken out of production, already have been received from Washington. The bulk of the checks, however, probably will not be received at about the same time. These payments will total $2,000,000, a fourth of the total amount to be received.

In the next six weeks new AAA burley production contracts are expected to be received at the state office and checks distributed among growers who desire to continue in the federal adjustment program.

In speaking of the numerous letters he had received asking him not to call the session today by Burr Warner P Davis, Presiding Elder of the District.

The meeting will convene at 9:30 a. m. and continue through the day until 9 p. m. Luncheon will be served by the ladies of the Carlisle 22nd District church.

Rhea Appointed Board Member

Former Chairman Named When His Successor Resigns. To Serve Until February 1

Thomas S. Rhea, of Russellville, who resigned as chairman of the State Highway Commission to make an unsuccessful race for the Democratic nomination for Governor, resumed his position Tuesday as a member of the commission, filling a change in the commission since last January.

Rhea was appointed a member from the Third road district to succeed J. A. Reed, Russellville, who took Rhea's place as a member last April. Reed, who gave up his place as engineer to succeed Rhea, was appointed district engineer. Rhea's appointment was for the original unexpired term of Commissioner J. Dunkin, 1936.

Although it was reported at Frankfort that Rhea would be elevated to the chairmanship position as chairman, J. Lyter Donaldson, of Frankfort, who became chairman on Rhea's resignation, said he knew of no such plan. Donaldson presided at the meeting Tuesday.

Donaldson said employes in the central office and in his road district would not be assessed to raise funds to pay obligations incurred during Rhea's unsuccessful campaign.
