Barnard Damage Suit Compromised

The case of the Barnard Dry Goods Store against several insurance companies, seeking to recover damages resulting to it from a fire which destroyed the Barnard & Kamp building and stock of merchandise, was compromised and settled out of court, but the terms of the compromise were not made public, although it was stated by counsel for the members of the Barnard firm that some of the insurance companies settled in full.

The case was heard in the May term of the Montgomery circuit court, resulting in a hung jury, and was scheduled to come up Tuesday in circuit court before Special Judge C. C. Marshall, of Mt. Sterling, but was settled before the case was tried in May.

King Determined To Marry, Belief

King Edward is determined to marry Mrs. Ernest Simpson in spite of the consequences, according to news dispatches from the London.

Officials see two possibilities:

1. That the king will appeal to the people to sanction the marriage in spite of the cabinet and the statesmen.

2. That Edward will abdicate and marry the former Baltimore and Ohio railroad employee, Mrs. Simpson, as an ordinary person.

The bachelor king whose willfulness is a leading trait, was believed to have replied definitely to a warning from Prime Minister Stanley Baldwin that the government and parliament are prepared to oppose his marriage to the American divorcee.

KING EDWARD WILL ABDICATE THRONE TO MARRY MRS. SIMPSON

Informed Circles Say British Ruler Determined To Wed Mrs. Simpson

FAMILY HEARTBROKEN

According to a copyrighted United Press Dispatch to daily newspapers Wednesday, King Edward VIII of Great Britain has decided to abdicate in order that he may marry Mrs. Wallis Warfield Simpson, twice-divorced American woman.

The suspense in the United Kingdom has been unusually tense during the past few days. Prime Minister Stanley Baldwin last week informed the royal family that he could not marry the American woman and remain on the throne. The king informed the Prime Minister, according to reports, that he would marry Mrs. Simpson. Frequent conferences have been held by Mrs. Simpson's husband, members of the royal family and members of parliament.

King Edward, according to the press, is backed in his stand to marry Mrs. Simpson by Winston Churchill, Lloyd George and Sir Archibald Sinclair. In another case Sir Samuel Hoare, secretary of state for air, is said to be opposed to the match.

Mrs. Simpson would not be free to marry until her final decree of divorce is announced which can not be before next April.

Members of the royal family were reported to be heartbroken over the king's decision. It was assumed that the Duke of York would assume the throne in the event of abdication, but Tuesday a lengthy conference was held between Edward and his younger brother, the Duke of Kent.

The woman who has caused the greatest stir in Britain's royal circles in two centuries left Bryn Mawr, Md., in Baltimore, Maryland, 41 years ago, she has been twice married and divorced. Last summer she was granted a partial divorce from Ernest Simpson, prominent British banker and man. She is a member of a socially prominent American family.

King Edward ascended the throne last year upon the death of his father, King George V. As the Prince of Wales he had visited the United States upon several occasions and frequently spent much time on his ranch in Canada. He is 41 years old and as Prince of Wales was considered one of the most eligible matches in all of the royal families. His name had been frequently linked with members of the royal families of Europe.

Joseph A. McCord Killed As Tree Falls In Bourbon

Joseph Alfred McCord, 45, of Bourbon county, was killed instantly at 7 o'clock Saturday morning when he was crushed beneath a falling tree in the Miller-Ward farm on the Jackstown pike near Paris.

McCord, in company with three other workmen, T. H. Ballenger, Bruce Clough and Earl Watkins, was cutting down walnut trees on the farm when the accident occurred. McCord had climbed the tree to tie a rope to the topmost branches, to be used in guiding the tree as it fell. Just as some of the roots had been cut with one left to hold the tree upright, McCord was climbing down when the tap root gave way, causing the tree to fall and crushing McCord beneath the trunk.

McCord was a native of Fleming county. He is survived by his wife, Mrs. Pearl McCann McCord, formerly of Nicholas county, and eight children. His father, Elias McCord, and two brothers also survive. Funeral services were conducted at the grave in the Paris cemetery Sunday afternoon.

Five Counties Wet; Four Dry

Special Elections Held In Nine Counties Nineteen Have Voted Dry

Wet forces gained victory on all special elections held in eight counties Saturday and when they carried an equal number in special elections held in eight counties in two counties left standing last week for France. Born Wallis Warfield in Baltimore, Maryland, 41 years ago, she has been twice married and divorced. Last summer she was granted a partial divorce from Ernest Simpson, prominent British banker and man. She is a member of a socially prominent American family.

King Edward ascended the throne last year upon the death of his father, King George V. As the Prince of Wales he had visited the United States upon several occasions and frequently spent much time on his ranch in Canada. He is 41 years old and as Prince of Wales was considered one of the most eligible matches in all of the royal families. His name had been frequently linked with members of the royal families of Europe.

Lawrence, Marshall, Metcalfe and Knox returned dry majorities. Only Pendleton, Bracken and Lawrence voted wet making a total of nine counties out of nine which have voted to continue the sale of alcoholic liquor. Only Robinson counties approved the sale in elections held earlier in the year.

Court injunctions prevented elections in Wolfe and Fleming counties. An election scheduled in Harlan county was suspended because the court ruled the petition seeking an election was invalid. The election was held as a new petition.

Eleven other counties previously have voted dry. They are Crittenden, Hart, Jackson, Lincoln, Pulaski, Martin, Manoffin, Taylor, Bracken, Edmonson, Clinton, Carroll, Gallatin, Owen, Whitley and Morgan.

The high court of appeals, however, recently held the Crittenden county election invalid.

Former Minister Here In Suicide Attempt

The pain of an aching tooth caused Rev. Herbert D. Woodruff, 47, former Carlisle minister, to take his own life, police said here Friday. The Reverend Woodruff, who was found dead in a parked automobile on the Lexington pike near Jacks creek, died from carbon monoxide fumes from the car's exhaust pipe, police said.

Woodruff was pastor of the Christian church on East Union while a student at Transylvania college and later was pastor of the Mayslick Christian church, formerly in Mason county, and eight children. His father, Elias McCord, and two brothers also survive. Funeral services were conducted at the grave in the Paris cemetery Sunday afternoon.

Gain Of More Than Two Million In State Receipts

An increase of $2,209,171.07 in revenue receipts for the general expenditure fund for the period from July 1 to November 30, 1936, over receipts for the same months of 1935, was reported by Frank D. Peterson, director of accounts and control in the State Department of Finance.

More than $1,900,000 of the increase is credited to increased receipts from other types of licenses.

Receipts from various sources other than alcohol and licenses, however, showed a pretty much held their own during the current period as compared with the same period in 1935."

AMERICAN LEGION TO GIVE ANNUAL TREAT TO FORGOTTEN TOTS

Community Christmas Tree To Be Given At Court House Dec. 24

TO TRY TO REACH ALL

At a meeting of Nicholas Post No. 17, American Legion, held Friday night, the post voted unanimously to give the annual Christmas tree for underprivileged children this year. The Legion Auxiliary will share in the expense of the tree.

The Legion has sponsored the community Christmas tree here for the past several years and has never solicited donations from the citizens. This year the Legion, at the request of some public spirited citizens, decided to invite citizens to make contributions of money, toys, candy or fruit. The Legion has a definite amount of money to spend, and outside contributions will mean that more children will be reached and that each child will receive more in their sack. Because of the heavy expense involved, the Legion will not attempt to purchase and distribute Christmas trees and the hundreds of discarded toys which would be found scattered in the home little boy or girl who will be forgotten on Christmas morning.

Any donations may be left at the Legion hall with W. B. Murray, post commander, Henry Peters, post finance officer, or at The Mercury office.

The Legion has asked the teachers of the rural schools of the county to furnish a list of the underprivileged children of their community in order that arrangements may be made to send sacks to them. The name of not only children in school but of pre-school children are requested. Teachers are asked to send these lists not later than December 19 to Grimes Caywood, post adjutant.

Outline Of AAA Program Given

No Drastic Changes Expected In Kentucky Regulations. Corn Plan Changed.

An outline of the 1937 AAA conservation program as it affects Kentucky was received at the office of Dean Thomas P. Cooper of the Experiment Station at Lexington Tuesday. In it the details of the program was considered similar to the 1936 program.

Payments for diverting burley tobacco land to soil building crops will be made at the rate of 40 cents a pound on the estimated yield of the diverted acres, with 25 per cent of the base acreage the maximum. For fire-cured and dark air-cured tobacco, the payment will be 1-2 cents per pound, with 30 per cent per annum acreage that can be diverted.

In the case of general food and fiber crops, $9 an acre will be the base payment for land diverted to soil-conserving crops, up to 15 per cent of the farm acreage where the products are in excess of home needs. Payments will vary from $9 in accordance with the productivity of the land.

Dean Cooper said the program probably would not be put before farmers before January, or until further details of its provisions are known.
