

# Veterans

The people of the United States are trying in a material way to make reparation for services and sacrifices made twenty years ago. It is marked by the fact that the Government is now paying great attention to get up for the suffering men and hardships you went through at the front.

And to those hundreds of thousands of heroes of the war who did not return, anything we might try to do in appreciation is more than what you have done for us who are left behind in France.

But to you, the "old comrades," something to do for that which could not be bought with money. It is yours. We are glad to see you get it. We are not even going to offer a suggestion as to what you may do with it.

The wherever you do, do not look upon your homes as a gift. It is heaven-hold-both with a great deal of us will never know.
