Veterans

The people of the United States are trying in a material way to make payment for services and sacrifices made twenty years ago. It is, marked "Paid in full" but it never can be so. There is no price great enough to put on the suffering, misery and hardships you went through at the time.

And to those buddies of yours and brothers of ours who did not return, anything we might try to do in appreciation is poor indeed. We who live do not realize what price civilization itself has paid for those of those who lie buried in France.

But to you, the living, we extend compensation for that which can not be bought with money. It is yours. We are glad to see you get it. We are not even going to offer a suggestion as to what you may do with it.

But whatever you do, do not look upon your loans as a gift. It is heaven-bought—bought with a price most of us will never know.
