**WONDERFUL RELIEF**  
An innovation proposed in Governor Chandler's reorganization bill, wisdom of which is obvious, is the creation of a division of testing and passing on qualifications of all applicants for positions in the state service. There will be established a minimum standard for each position for employment from which an applicant may be selected. A schedule of compensation for each position will be made, a minimum, maximum and intermediate rate to be determined by the department in which the position is located. This is a most desirable feature of the bill, and it is hoped that it will be passed.
