THE RAILROADS CARRIED ON

The Winter of 1936— Snow blocked the highways, Sleet roared the airways, Ice jammed the rivers, but...

The Train Went Through

...drilling their human carcases safely, carrying coal and handling food and medicine to snowbound communities, to homes and hospitals and factories.

Whether the emergency is drought or flood... blizzard, hurricane, flood, drought, fire... this story is always true. In 1934 the railroads carried families, drought suffering cattle to fertile pastures, to remove refugees, to bring the creature comforts to anguished humanity.

Kentucky Wheat Crop To Be Larger This Year

Kentucky's prospective wheat crop this season promises to be larger than the state's best harvest in 1935. The acreage planted is estimated to be 1,200,000 acres, according to the May report of the U. S. Department of Agriculture. The yield is expected to be 27.5 bushels per acre, or a total of 33,000,000 bushels. This is a record for the state.
